

## **Varsity View Neighbourhood Traffic Concerns**

**Tuesday, January 21, 2014**

**7:00 pm – 9:00 pm**

**Albert Community Centre  
610 Clarence Avenue South**

Residents of the Varsity View neighbourhood are invited to attend a public meeting to discuss traffic concerns in their area. The meeting will be hosted by the City of Saskatoon, Transportation Division.

A presentation will be made providing background information on the Traffic Management Program; as well as previously identified traffic concerns in the Varsity View neighbourhood. The presentation will be followed by a small group workshop to identify other traffic issues, and a question and answer session.

The Transportation Division will use the feedback received during the meeting to conduct appropriate traffic counts and studies. This information will be used to develop an area-wide plan for the Varsity View neighbourhood which will be presented in late 2014.
