Varsity View residents have a strong tie to the University of Saskatchewan. The Campus Computer Store, Bookstore and the occasional treat from Tim Hortons in Place Riel Student Centre are among residents most visited places.

Walter Charles Murray was the University of Saskatchewan's first president and he served from 1908-1937. President Murray's legacy lives on: the name "President Murray Park" in Varsity View was not formally applied until ca. 1941 (O'Brien, personal communication, February 4, 2011).

3.

University of Saskatchewan students are everywhere in Varsity View! Many students are employed by Varsity View businesses such as Brunskill Pharmacy and Alexander's Restaurant & Bar. Other students complete clinical placements or gain work experience for their programs such as at the Kinsmen Children Centre on Wiggins Ave N or at Luther Tower on Temperance Street.

The University of Saskatchewan's College Quarter current and proposed student residences will add 2,500-3,000 beds for students, in addition to the on-campus residences and McEown Park residences. The plan also proposes the development of public spaces, residential development and various businesses that Varsity View residents have expressed interest in providing input and being involved in decision making.
